Kampala, Uganda

OBJECTIVE

"Ambitious Software Engineering student at Kampala International University and **Python specialist** with a strong technical foundation in **PHP, Java** and **C**. I am dedicated to bridging the gap between complex data and user-centric applications by building resilient systems focused on economic transparency and digital security and ecosystems. With a proven track record in rapid prototyping and integrating innovative software solutions, I leverage a unique blend of academic rigor and hands-on project experience to solve complex engineering challenges. I am eager to contribute my technical expertise to a forward-thinking team while continuing to scale my capabilities in backend development, driven by a long-term goal of pioneering next-generation internet technologies.

EDUCATION

Bachelor of Science in Software Engineering

- **Kampala International University** | Kampala, Uganda | 2025 - Present (Year 2)

Diploma in Computer Science Coursework

- **Metropolitan International University** | Kisoro, Uganda | 2024 - 2025
 - Completed nine months of intensive technical coursework following S.6 completion in 2024.
 - **Core Technical Skills:** Specialized in **Python** programming; gained foundational proficiency in **Java** and **PHP**.
 - **Key Areas of Study:** Focused on programming languages, algorithms, and software engineering principles.
 - **Practical Application:** Developed skills in problem-solving and implementing software solutions.

Uganda Advanced Certificate of Education (A' Level)

- Standard Secondary School, Kisoro | Uganda | 2023 - 2024

Uganda Certificate of Education (O' Level)

- Mutolere Secondary School, Kisoro | Uganda | 2018 - 2022
-

SKILLS

Technical Skills

- **Programming Languages:** Python, JavaScript, Typescript, PHP, C
 - **Web Technologies:** HTML5, CSS3
 - **Database:** SQL, Postgresql, MongoDB
 - **Areas of Interest:** Web Development, Database Management, Software and system Design, AI
 - **Software:** Microsoft Office Suite, graphic design tools (e.g., Canva)
 - **Digital Marketing:** Branding, social media management, content creation, campaign strategy, Video and photo editing
 - **Graphic Design:** Visual identity, marketing materials, design principles
-

Soft Skills

- Leadership & team coordination
 - Communication (verbal and written)
 - Problem-solving and critical thinking
 - Time management and organization
 - Adaptability and continuous learning
 - marketing
-

PROJECTS AND COURSEWORKS

PERSONAL PROJECTS

- **Quick Assurance Attendance Tracker (QAAT)**
[Built in PostgreSQL 15+, SQLite, Flutter, JavaScript, PHP]
The Quality Assurance Attendance Tracker (QAAT) is an enterprise-grade, offline-first attendance management ecosystem designed especially for academic institutions.
Technologies used: PHP, JavaScript, SQL, Flutter, HTML, CSS
- **Report Management System (RMS)**
[Built in React, Typescript, SQLite, Javascript and CSS]
The Report Management System (RMS) is an offline desktop-first standalone system designed to manage the students marks and generate their report cards. It is built on the guidelines of the new curriculum of Uganda.
Technologies used: Typescript, SQLite, Javascript and CSS

- **Agrolink Uganda**

[Built in HTML5, CSS, PHP, SQL, JavaScript, Flutter]

Agrolink Uganda is a multiplatform web application that connects farmers to buyers directly avoiding the effect of over exploitation by middlemen, maintaining livestock and food supply to avoid starvation and malnutrition in Uganda

Technologies used: *HTML5, CSS, PHP, SQL, JavaScript, Flutter*

- **Light AI agent**

[Built in Python, Flutter, SQL]

Light is a voice only Agentic generic system level ICT AI assistant designed to neutralize the loneliness by chatting and jazzing the owner using only voice replies.

Technology used: **Python, Flutter, SQL**

COURSEWORK

- Developed simple web pages and websites using HTML, CSS and JavaScript like FarmDirect
- Built basic Python scripts for problem-solving and algorithmic exercises.
- Designed and queried relational databases using SQL for data management tasks.
- Explored PHP-based dynamic web pages with form handling and basic CRUD operations.

SKILLS & COMPETENCIES

- Strong analytical and problem-solving skills.
- Ability to learn new technologies quickly and independently.
- Good communication and teamwork skills developed through group projects.
- Time management and academic discipline demonstrated throughout secondary education.
- Basic understanding of software development life cycle (SDLC).

EXPERIENCE

Bank of Uganda Hackathon (BoU@60)

Mestril Hotel — *[Kampala, Uganda]*

- Created a system that allows the Bank of Uganda (BoU) and regulated entities to coordinate faster responses to mobile money fraud.
- Used advanced technologies to build functional prototypes or MVPs within a 48-hour sprint to solve economic bottlenecks faced by the Bank of Uganda and other entities

Vice President — CYBER CLUB

2020 – 2021

[MUTOLERE SECONDARY SCHOOL], O-Level

- Led and coordinated Club activities, workshops, and events for student members.
- Organized inter-school technology competitions and managed club communications.
- Mentored fellow students in computer skills and emerging technologies.
- Collaborated with school administration to promote digital literacy among peers.

President — CYBER CLUB

2023 - 2024

[STANDARD SECONDARY SCHOOL], A-LEVEL

- Led and coordinated Club activities, workshops, and events for student members.
- Organized inter-school technology competitions and managed club communications.
- Mentored fellow students in computer skills and emerging technologies.
- Collaborated with school administration to promote digital literacy among peers.

TRAINING & CERTIFICATIONS

SAUTI Digital Marketing Training Program

[02nd MARCH TO 22nd APRIL] 2026

National Innovation Hub — [NAKAWA, UGANDA]

- Completed an intensive training program covering branding, graphic design, copy writing and digital marketing strategies.
- Gained practical skills in building brand identity, designing marketing materials, and managing online campaigns.
- Learned to use digital tools and platforms for content creation, audience engagement, and market analysis.

Digital Awareness Training program

Bunagana Town council Headquarters — [BUNAGANA, KISORO, UGANDA]

- Completed a training program about digital security where I was one of the presenters
- Guided people how to overcome digital threats, data breach and others
- Gained practical skills like communication skills, resource management and more

LANGUAGES

- **English:** Proficient (academic medium of instruction)
- **Luganda / Rukiga:** Conversational
- **Swahili:** Conversational
- **Kinyarwanda:** proficient
